Key Innovation in your Access

SMALL , compact system with built-in compressor for vitrectomy and optimized ergonomic stand architecture.

SMART ProVAC™ – Progressive Vacuum Technology powered by an intelligent GUI with real-time voice feedback for seamless control.

POWERFUL High-performance 40 kHz titanium handpiece with intelligent pulse modulation technologies – ProPulse™, ProBurst™, and OccluShift™ – delivers effortless control in every nucleus grade.

Precision-engineered fluidics system with rapid-response peristaltic pump delivers strong hold, enhanced followability, and stable, surge-free control across 2.8 mm, 2.6 mm, and MICS procedures.

Ergonomically engineered multifunction foot pedal ensures sustained comfort and precise control throughout extended operating sessions.

Technical Specification

VACUUM	5–650 mmHg Fixed / Linear ProVAC Mode
FLOW RATE	1–65 cc/min Peristaltic Pump Auto Venting Reflux
PHACO POWER	0–100% 40 KHz 4 Crystal 250 Pulses/Sec
PHACO MODES	Continuous Pulse Burst Pro-Pulse Pro-Burst Occlu-Flip
VITRECTOMY	3000 Cuts/Min Pneumatic 23G Integrated Compressor
DIATHERMY	Up to 100% 19G Compatible
GUI	10" Touch Screen Voice & Audible Feedback
POWER SUPPLY	100–240V 50–60Hz 150W
